Subject: Many thanks!

Hi Judi,

I hope you enjoyed the bank holiday weekend and all the sun!

I just wanted to pass on a message of thanks to Sean, his team and everyone that looked after me from start to finish at Royal Berkshire. Everyone went above and beyond to make me feel comfortable and confident about the whole procedure and I have been singing your praises all weekend. I am recovering remarkably well (nicely done Sean) the swelling has gone down and I am already off crutches and painkillers. I am being religious about my physio and my knee is feeling stronger every day. It's such a relief and I just wanted to reiterate how grateful I am for the work you all do, it makes such a big difference to peoples lives.

It felt wrong not saying anything at all so I hope this message finds you well.

Many thanks and all the best,  
Freya
