

To Mr O'Leary

I don't know where to start - Thank You!!

I know it has been a long two and a half years.

I just want to thank you for all you've done for me. Not only fixing my knee but to also have the belief in me to know I would put the work in to ensure success after all operations.

So for this I am and forever will be grateful for your support, care and belief. I hope I have done you proud as a patient. I hope I don't have to see you again no offence!!

I believe I am completely fixed as I've been playing football for the past two months it's the most human I have felt in the past two years, fair to say I reached my goal!!

This has been your magic at the three operations. In addition, to this I am grateful for your non stop attitude until my knee was 100% fixed.

I will forever appreciate you and work - and will never forget you.

I wish you a Merry Christmas and wishing a good and successful New Year.

I can't thank you ~~enough~~ enough honestly, it's been a pleasure, Mr O'Leary.

Thank You

Kristian Cuffe O'Malley
