Dear Mr O'Leary,

I would like to thank you
for your kindness and care over the past
two years.

When I visited you with my
daughter, Alison - I was in great trouble
with my knee. It never seemed to stop
hurting me, and I decided to have the operation
You offered me the operation in September.
Since then, I had a very bad fall in Queen St.
Fortunately, nothing was broken - but I was
quite badly hurt! Adrian bought me a
rollator, which I have been using since October.
and I have found that it helped me to walk
upright. I will be honest, I was very scared
of falling again.

When you offered me the 2nd
op. in September - I seemed to have caught

a series of injections and have been rather poorly since.

I have at last recovered, and find that I am walking upright and not in so much pain. Obviously, I was walking crooked with the stick.

So many thanks for your kindness, but I will not be having the operation.

I have spoken to Philip Urwin, who agrees with me.

Once again, I am grateful for your help, but I don't do well with operations. So do hope you understand.

With regards

Sylvia Gregory
